Pediatric Pulmonary Care 101.
Asthma • Cystic Fibrosis • Apnea • Respiratory Illnesses

Overview.
The University of Arizona Pediatric Pulmonary Center (UAPPC) trains health care professionals and helps children with respiratory conditions in Dept. of Health and Human Services – Region 9: Arizona, California, Federated States of Micronesia, Hawaii, Nevada, Samoa, Marshall Islands, Guam, Mariana Islands and Palau.
The UAPPC also conducts outreach clinics to Fort Defiance, and Chinle, Arizona as well as local clinics.

Numbers.
Between July 2012 and June 2013, faculty and trainees delivered clinical services to 12,920 patients.
We train doctors, nurses, nutritionists, social workers, pharmacists and respiratory care therapists.
