

The University of Arizona Pediatric Pulmonary Center

13th Annual School Healthcare Training Event

February 12, 2022 9:00 AM – 2:00 PM

Virtual Event

Title: Child abuse and Trauma in the Emergency Department Setting
Presenter: Stephanie Roe, LMSW

Stephanie Roe, LMSW, is a Licensed Master Social Worker with a Master of Social Work degree and Bachelor of Psychology degree from Arizona State University. Stephanie has practiced in the field of mental and behavioral health for nearly 10 years with a concentration in crisis management, intervention, and prevention. She is currently an Emergency Department Social Worker at Phoenix Children's Hospital and has approximately 4 years of experience working within a medical setting.

Stephanie's role is oriented to crisis, and she is often responsible for managing the most acute social needs including, child abuse, incoming traumas, end of life, and concerns deemed emergent.

Objectives:

1. Define child abuse and neglect.
2. Understand risk and protective factors for child abuse and/or neglect.
3. Recognize common signs of child abuse and/or neglect.
4. Discuss appropriate and effective response when child abuse and/or neglect is suspected.

Title: Asthma
Presenter: Lauren Benton, MD

Lauren Benton, MD earned her undergraduate degree at Ursinus College in Pennsylvania and went on to complete her MD at the Lewis Katz School of Medicine at Temple University in Philadelphia, Pennsylvania. Dr. Benton became a pediatric resident at Banner University Medical Center in Tucson, Arizona in 2016 and went on to become a pediatric pulmonology fellow. In her free time, she enjoys playing board games with friends, sewing, and cooking.

Objectives:

1. Defining asthma and how to determine if a child is suffering from an asthma exacerbation
2. Improve understanding of asthma management
3. How a school can help a child with asthma

Title: Pediatric Crisis Stabilization, Do's and Don'ts...

Presenter: LeeAnn L Kuang, MA, LPC, NCC

LeeAnn L. Kuang, MA, LPC, NCC graduated from University of San Diego with a Master of Arts with an emphasis in clinical mental health counseling in 2013. Ms. LeeAnn has extensive clinical experience working with diverse population and age groups. She is trained in EMDR with advanced knowledge in attachment and dissociation. She also incorporates other evidence based therapeutic approaches into her practices, As well as, meeting her clients where they are to help her clients achieve optimal well-being. On her free time, Ms. LeeAnn enjoys cooking and spending time with her family and friends.

Objectives:

1. An overview of pediatric (aged 5 to 13) and adolescent (aged 14 to 17) inpatient psychiatric admission process and the necessary criteria's that supports this.
2. Appropriate assessments that are used to conduct biopsychosocial assessments.
3. Learn and understand the importance of assessing pediatric mental health in different environments.

Title: COVID 19 & School Aged Children

Presenter: Cori Daines, MD

Cori Daines, MD is a Professor of Pediatric Pulmonary Medicine at the University of Arizona in Tucson, Arizona and division chief of Pediatric Pulmonary Medicine. Dr. Daines received her undergraduate degree from Texas A&M University and her medical degree from St. Louis University. She completed her residency in Pediatrics at St. Louis University/Cardinal Glennon Children's Hospital and her fellowship in Pediatric Pulmonary Medicine at the University of North Carolina. She was faculty at Cincinnati Children's Hospital prior to coming to Tucson in 2007. She serves on several national committees for the American Thoracic Society and the Cystic

Fibrosis Foundation.

Dr. Daines has broad-ranging interests in Pediatric Pulmonology, serving in Tucson as the CF Center Director, Director of the Pediatric Flexible Bronchoscopy Program, Director of the Home Tracheostomy and Ventilator Program, Director of the Pulmonary Neuromuscular Program, Director of our Children with Special Needs Program, Director of Pediatric Respiratory Care for the University of Arizona Hospital, and the pulmonary member of the Pediatric Aerodigestive Program. She also has been involved in Banner's Advanced Leadership for Physician's Program and serves on the Operations Committee for Banner University Medical Group.

Dr. Daines' research interests have focused on clinical and translational research in cystic fibrosis as well as quality improvement research with cystic fibrosis. She currently directs the Tucson Therapeutics Development Center of the CFF to lead clinical research, directs Tucson's participation in the CFF Success with Therapies Research Consortium, sits on the CFF North American Conference Planning Committee and serves as a Coach for the CFF TDN's eQUIP-CR quality improvement in CF clinical research program. She also serves on the board of the Southern Arizona's Chapter for the Cystic Fibrosis Foundation.

Objectives:

1. Describe the history of the COVID-19 pandemic.
2. Discuss the medical impact of COVID-19 on school aged children.
3. Identify current evaluation and treatment modalities for patients with COVID-19.
